obtaining earth a minor mineral a certificate of afforl. was issued on the recommendation of the Dist. (Para 1 of letter No. 423-G/24 dt 2/24 from the Dist of Guntur)

whether the a fresh C. of A. is necessary under the circumstances represented is a point for orders of the Dist of Govt. is in favour of issuing on all the licenses to obtain certificates of afforl. for all minerals

20 10/12/25 It is better to insist on the production of a C. of A. in the case of all minerals

R/Sn/

16/12

Corundum is a mineral and under the purview of the prohibition. And it is best to have a uniform practice as suggested by the offg Director. (The number may be changed when existing rules (Mr. Mundle) only.)

GEN. SECRETARIAT 2933 5 DEC 1925 INDUSTRIES & COMMERCE BRANCH

GENL. & REV. SECTT. Br. From 4 DEC. 1925 G. D. SECTION.

A. M. Sen, Esquire, M.Sc., F.G.S., &c.,
Offg. Director,
Mysore Geological Department.

Geol. 76-25-1.

B. Srinivasa Iyengar, Esquire, B.A., B.L.,
Secretary to the Government of His Highness
the Maharaja of Mysore,
Revenue Department.

Sir,

I have the honour to invite a kind reference to Rule 3 of the Rules for the grant of mineral licenses and leases published under Notification No.G.25838-Geol.57-18-20, dated 12th May 1920 whereby it is directed that no license or lease under the rules shall be granted to any person not holding a valid certificate of approval. This rule is being adhered to in respect of all licenses and leases granted under the Rules.

2. In respect of corundum however there has been a separate set of rules framed and published under Notification No.G.2939 Geol 8-15-16, dated 29th August 1916, and at the time of the framing of these rules the issue of approval certificates was not in vogue, it having been introduced later for the first time in 1920. In addition to licenses granted for the collecting of corundum, similar licenses are sometimes given out for soapstone and Fuller's earth and it may be necessary in future to grant such licenses for other lesser minerals. I feel it therefore doubtful if approval certificates should be required to be taken by all applicants for corundum and other lesser minerals as above. In the case of Mr. Arale Sangappa of Mandya who applied for a license for collecting Fuller's earth an approval certificate was required to be taken and he did so. Mr. Katte Venkataramanaiya, Corundum licensee of

Geol 42-24-4 P

G.A 65-22 R

oratagere, had taken out a certificate in February 1923 b[redacted] it enewed for ~~next~~ the following year only. He therefore had no valid approval certificate this year when a fresh collecting license over Koratagere Sub aluk was granted to him in July 1925. Subsequently Mr.Jayaram equired him to take out a fresh approval certificate but there has een no application from him for the same in spite of a reminder. s the rules for collecting licenses published in 1916 do not equire it, it is doubtful if this can be insisted upon. In view of he circumstances above related I would solicit for a ruling of overnment in the matter. From a revenue earning point of view it is dvantageous to Government and it is also desirable to have a uniformity of procedure in respect of all minerals of high value or otherwise.

I have the honour to be,
Sir,
Your most obedient servant,

Offg. Director,
Mysore Geological Department.

C.N.
